MYPLATFORM: Member Management & Online Payment System

MY PLATFORM was developed in partnership with **IMG Sports Technology Group**. It provides the weightlifting community with a variety of tools to facilitate administrative functions at national and club level, along with providing every individual participant with access to the system to view and maintain their personal details and pay for services offered by OWNZ.

Club Access

OWNZ can provide each affiliated club with this resource to use as well, **FREE OF CHARGE**, to collect their own membership registrations and have access to the reporting options the system provides.

If interested, New 2016 Clubs will be set up with a master login/password for their own club console once affiliation has been approved. We will work closely with you in setting up your own membership registrations and payment options.

Benefits of the Member Management System - MemberDesq

- Reduce the time and resources needed to administer your Club
- Capture, store, track and update member and club information in a secure environment
- Access to detailed reporting functionality
- Communicator system allowing club managers to contact members straight from their database
- All information is secure but you can also access this information from any computer

Benefits of Online Registration & Payment

- Simple and easy way for members to affiliate with you and OWNZ
- Payment system integrates easily into the registration form
- System can be used for other transactions like event fees and merchandise sales
- Allow members to pay anywhere at anytime
- Link registration and payments to your own Club website

NOT COMPULSORY

This is NOT a compulsory requirement of being an OWNZ affiliated Club.

We understand that majority of Clubs already have their own registration and payment systems in place. However, as the sport continues to grow, it might be something we consider for the future but for 2016 we would like to provide the option to Clubs to use and familiarize themselves with this system by their own choice.

Change your mind?

The good thing about this system is that it will still collect and store all of your Club members information with the option of developing your own system later on if you change your mind.

2016 – 2020 Strategic Plan Alignment

OWNZ is currently in the process of finalizing our four-year strategic plan. We have lots of exciting initiatives to help grow the sport of weightlifting around New Zealand and we would love to have more Clubs involved in the opportunities that evolve from this plan.

The details of our initiatives are still to be confirmed but we would love to give you a sneak peak into what we are working on...

Club Workshops

Throughout 2016 OWNZ will be delivering Workshops that educate, strengthen and develop our clubs in delivering the sport of Olympic Weightlifting to its members and community.

Topics are still to be confirmed but may include:

- Competitions Hosting Requirements
- Event Management
- Volunteer retention
- Up-skilling Officials
- Referee Exam/s
- Education on funding applications & sponsorship
- Developing Club Governance & Strategic Direction
- Alignment with OWNZ's Vision

School Program

OWNZ is developing a school program that will be made available for our affiliated clubs to endorse. The aim of this program will be to strengthen the links between clubs and schools and to increase the opportunities our youth have in participating in weightlifting. This program will align directly with the school curriculum and OWNZ will provide help with creating a relationship with the school that is sustainable.

OWNZ will be running a pilot program at the start of 2016 and once we have finalized the details of how this will be run by both OWNZ and its Clubs then we can get the details out ASAP!

Coach Development Pathway

OWNZ is in the process of finalizing our Coach Development

pathway. We are looking to build and develop a coaching system that also aligns with potential stakeholders.

The outcome of this pathway is to build capacity and capability of our coaches at all levels of our sport to deliver quality experiences in weightlifting.
